

Year 9 Options

A list of careers linked to subjects

The job titles are an indication of what you may be able to do in the future. However, job titles change and new ones develop depending on what the employer needs, trends, the development of technology and the labour market demands.

You may also need to have another particular subject for some occupations.

You may have an interest in two subjects which when combined could lead to other roles.

You will also gain transferable skills from your choice of GCSE as well as the specialist subject knowledge. These are also required by learning providers and employers.

SUBJECT	POSSIBLE CAREERS	
Art	Florist Television Theatre set design Media Marketing Advertising Illustration Fine Artist Designer Crafts person Teacher/Lecturer Education	Painting and decorating/renovation Hairdressing/styling Television/media make up Gallery/museum assistant Exhibition/event manager Landscape gardening Tattooing Therapist
