CYBER SECURITY POLICY (Exams) 2024/25

This policy is reviewed annually to ensure compliance with current regulations

Approved/reviewed by	
Corinne Hunter	
Date of next review	03/12/2025

Key staff involved in the policy

Role	Name(s)
Head of centre	Gary Pearson
Senior leader(s)	Gail Davies
Exams officer	Corinne Hunter
Lead Invigilators	Sandra McDevitt & Shirley NG

CYBER SECURITY POLICY (Exams) TEMPLATE

There is no current JCQ regulation for centres to specifically have a **cyber security policy** in place. This template is provided as an example **only** and is designed to provide you with a starting point/framework on which to build a cyber security policy and associated procedures relating to the management, administration and conducting of examinations.

This template is informed by the Joint Council for Qualifications (JCQ) and the National Cyber Security Centre (NCSC).

A table to record key staff (job role and name) involved in the policy is included at the beginning of the template. You may choose to delete this or use it as good practice by inserting **all** relevant roles and staff names (some example roles have been provided).

Important points to note

- Roles, responsibilities and processes included in this template are suggestions only
- The roles, responsibilities and processes identified in this template are not exhaustive
- [Insert...] fields are in coloured font to highlight them this is to ensure the need to insert relevant centre-specific details stands out and is not overlooked change colour to 'automatic' when inserted
- These should be closely checked and edited accordingly to reflect ways of working in your centre by:
 - o deleting information that is not relevant to your centre
 - amending information where a role, responsibility or process is different in your centre
 - o adding information that you consider should be included in your policy

Purpose of the policy

This policy details the measures taken at Lydiard Park Academy to mitigate the risk of cyber threats under the following sections:

- 1. Roles and responsibilities
- 2. Complying with JCQ regulations
- 3. Cyber security best practice
- 4. Account management best practice
- 5. Training

The senior leadership team recognises the need for staff involved in the management, administration and conducting of examinations to play a critical role in maintaining and improving cyber security at Lydiard Park Academy.

In addition to adhering to industry best practices, the following areas are addressed in this policy to ensure that members of the exams team protect their individual digital assets:

- Creating strong unique passwords
- Keeping all account details secret
- Enabling additional security settings wherever possible
- Updating any passwords that may have been exposed
- Setting up secure account recovery options
- Reviewing and managing connected applications
- Staying alert for all types of social engineering/phishing attempts
- Monitoring accounts and reviewing account access regularly

1. Roles and responsibilities

Head of centre/Senior leadership team

- To ensure that members of the exams team, supported/led by the IT team, adhere to best practice(s) in relation to:
 - o the management of individual/personal data/accounts
 - o centre wide cyber security including:
 - Establishing a robust password policy
 - Enabling multi-factor authentication (MFA)
 - Keeping software and systems up to date
 - Implementing network security measures
 - Conducting regular data backups
 - Educating employees on security awareness
 - Developing and testing an incident response plan
 - Regularly assessing and auditing security controls
 - Immediately contacting the relevant awarding body/bodies for advice and support in the event of a cyber-attack which impacts any learner data, assessment records or learner work

Exams Officer

- To ensure that they follow best practice in relation to the management of individual/personal data/accounts
- To provide evidence of an awareness of best practice in relation to cyber security as defined by JCQ regulations/guidance
- To undertake training on:
 - the importance of creating strong unique passwords and keeping all account details secret
 - o awareness of all types of social engineering/phishing attempts

2. Complying with JCQ regulations

The head of centre/senior leadership team at Lydiard Park Academy ensure that there are procedures in place to maintain the security of user accounts in line with JCQ regulations (sections 3.20 and 3.21 of the *General Regulations for Approved Centres* document) by:

- providing training for authorised staff on the importance of creating strong unique passwords and keeping all account details secret
- providing training for staff on awareness of all types of social engineering/phishing attempts
- enabling additional security settings wherever possible
- updating any passwords that may have been exposed
- setting up secure account recovery options
- reviewing and managing connected applications
- monitoring accounts and regularly reviewing account access, including removing access when no longer required
- ensuring authorised members of staff securely access awarding bodies' online systems in line
 with awarding body regulations regarding cyber security and the JCQ document *Guidance for*centres on cyber security: www.jcq.org.uk/exams-office/general-regulations
 - Authorised staff will have access, where necessary, to a device which complies with awarding bodies' multi-factor authentication (MFA) requirements.
- reporting any actual or suspected compromise of an awarding body's online systems immediately to the relevant awarding body

3. Cyber security best practice

The head of centre/senior leadership team ensure that they and all staff involved in the management, administration and conducting of examinations/assessments at Lydiard Park Academy stay informed about the latest security threats and trends in account security.

Staff within the exams team are educated on how to identify phishing attempts, use secure devices and how to protect systems and data by INSET

Best practice, advice and guidance from NCSC is observed for all IT systems, particularly those where learner information, learner work or assessment records are held.

National Cyber Security Centre (NCSC) training and guidance is followed at Lydiard Park Academy which includes:

- Establishing a robust password policy
- Enabling multi-factor authentication (MFA)
- Keeping software and systems up to date
- Implementing network security measures
- Conducting regular data backups
- Educating employees on security awareness
- Developing and testing an incident response plan
- Regularly assessing and auditing security controls

By adopting industry standard cyber security best practices, the head of centre/senior leadership team are significantly reducing the risk of cyber-attacks and protecting valuable data and assets within the centre.

If a cyber-attack which impacts any learner data, assessment records or learner work is experienced, the senior leadership team/exams officer will contact the relevant awarding body/bodies immediately for advice and support.

4. Account management best practice

Creating strong unique passwords

Overtype here any information relating to the centre policy to ensure that individual staff members create strong unique passwords.

Examples

- Exams office staff are informed that password length is a more valuable defence than complexity and instructed to use a password creation approach such as three random words to generate suitably secure passwords
- Exams office staff will not use easily guessable information such as birthdays, singular names or common words for a password
- For every account, users are instructed to use a strong unique password and that the same password is not used across any other account(s)

Keeping all account details secret

Overtype here any information relating to the centre policy for ensuring that individual staff members keep all account details secret.

Examples

- Exams office staff are instructed never to share login/password details or additional factor/authentication codes with anyone else
- Staff who require access to a system will request their own user account and never share an account assigned for their use with anyone else. Staff are reminded that anything done with an account assigned to someone will be attributed to that person in the first instance

Enabling additional security settings wherever possible

Overtype here any information relating to the centre policy for ensuring that individual staff members ensure and adhere to additional security settings.

Examples

- All staff will follow awarding body two-step verification (2SV)/two-factor verification (2FA) or multi-factor authentication (MFA) wherever available/requested. Staff are made aware of the purpose of 2SV/2FA /MFA, which includes:
 - adding a layer of account security
 - helps to protect users if the extra steps/factors are protected

Updating any passwords that may have been exposed

Overtype here any information relating to the centre policy for ensuring that individual staff members update and report any passwords that may have been exposed.

Examples

- If it is believed that a password may have been exposed/become known to others, staff will inform their senior leader/line manager immediately
- Any exposed passwords will be changed as soon as possible and the new passwords should not be shared with anyone except their senior leader/line manager
- Staff are instructed to use strong unique passwords (e.g. three random words) when changing passwords and that old passwords should not be reused nor should cycling through a small set of passwords across multiple accounts be used

Setting up secure account recovery options

Overtype here any information relating to the centre policy for ensuring that individual staff members are aware of and follow secure account recovery options.

Examples

Staff are instructed to follow centre account recovery options which include: [Detail centre
account recovery options, which may include alternate email accounts or phone numbers
protected by 2SV/2FA/MFA security measures]

Reviewing and managing connected applications

Overtype here any information relating to the centre policy for ensuring that individual staff members regularly review and manage connected applications.

Examples

- Staff within the exams team will regularly review and remove access for third-party applications or services that no longer require access to accounts
- Staff will be informed that access should only be provided to trusted services
- Staff will be asked to should be particularly cautious when interacting with content and services (e.g. quizzes, prize draws, surveys etc.)
- Staff will only grant permissions to applications and grant the necessary access required for them to function
- Staff will only download and install applications with established reputations from trusted sources
- Staff will not save passwords to local web browsers unless a secure password manager extension is used in a browser that requires unlocking (e.g. with another password) before the saved account details can be retrieved, however care will be taken to ensure that this is locked/signed out of after use
- When using a shared browser, staff will clear browser history and caches after use

Staying alert for all types of social engineering/phishing attempts

Overtype here any information relating to the centre policy for ensuring that individual staff members stay alert for all types of social engineering/phishing attempts.

Examples

- Staff must take care if unsolicited or unexpected emails, instant messages, or phone calls are received asking for account credentials or personal or confidential information. Passwords and 2FA/MFA authentication codes should not be given out to anyone
- Staff are instructed that is they have a wariness of anyone or anything that seems to want to gain their trust, rush them into doing something or that just seems off, they should hang up/not reply and not click on links or take any action and check with a trusted party via a secure channel (i.e. call awarding body customer services via a known support number)
- Staff will never approve or authenticate a login request that they did not initiate
- Staff will not share codes/approve logins should not be approved and requests to do so should be treated with a high degree of suspicion
- Staff will not click on suspicious links, download attachments or scan QR codes from unknown sources
- The centre will provide exams team staff with a secure QR code scanner with a good reputation to help gauge whether a QR code is suspicious or malicious
- Staff will verify the authenticity of any communication by contacting the organisation directly through official known channels
- Staff will report any phishing attempts which reference awarding bodies/their systems to the awarding body concerned immediately

Monitoring accounts and reviewing account access

Overtype here any information relating to the centre policy for ensuring that staff accounts and account access are reviewed regularly.

Examples

- Centre staff accounts will be routinely reviewed for any suspicious, unusual or unauthorised activity
- If any suspicious, unusual or potentially unauthorised activity on awarding body systems is observed this will be immediately reported to the relevant awarding body, particularly if is believed that user account security may have been compromised
- User access for staff who have left the centre is reviewed promptly
- Levels of access for all exams team staff are reviewed regularly to ensure accounts have the minimum level of access required for their current role

5. Training

The head of centre/senior leadership team ensure that there are procedures in place to maintain the security of user accounts by:

- providing training for authorised staff on the importance of creating strong unique passwords and keeping all account details secret
- providing training for staff on awareness of all types of social engineering/phishing attempts

Overtype here any information relating to the type and frequency of training provided for staff and appropriate evidence.

Examples

- Type/source of training (e.g. online, face-to-face as part of annual INSET)
- Evidence (e.g. certification via online training)
- Frequency (e.g. annual)
