Hot Weather - Student Health and Safety Reminder

Dear Parent/Carer,

I hope this letter finds you safe and well.

Following Mr Pearson's recent emails over the past two weeks, I would like to take this opportunity to remind you of the importance of your child coming to school prepared for the warmer weather.

A number of pupils attended school today without a water bottle. Staying hydrated is essential, particularly in hot weather, to maintain good health. Please ensure your child brings a refillable water bottle to school each day. Pupils are encouraged to refill their bottles during social times throughout the day.

In addition, if your child requires sun cream, please ensure they have access to it during the school day to help protect their skin especially if they are spending time outdoors (it can be left in their school bag). Pupils are also welcome to bring and wear a hat during social times as an additional measure of sun protection.

With high temperatures expected tomorrow, it is especially important that all pupils come to school prepared.

Thank you for your continued support.

Mr T Hancox

Assistant Principal – Behaviour and Pastoral
