

Annual SEND Information Report to Parents from the Governors on the Provision for Special Educational Needs and Disabilities (SEND) at Lydiard Park Academy 2024-2025

This annual report should be read in conjunction with the Special Educational Needs and Disabilities (SEND) Policy, the Equalities Policy, the Behaviour Policy and the Accessibility Plan. In 2023 we won the national Excellence award for Wellbeing Trust of the Year and our Students with SEND once again outperformed the national averages at both GCSE and A Level.

We have invited a national expert into school to review SEND practice and have had a 'Good' OFSTED inspection.

Previous OFSTED inspection: December 2023

- The provision for pupils who have special educational needs (SEN) and/or disabilities is a strength of the school. Pupils who attend the Autism Spectrum Centre (ASC) receive very effective support to enable them to attend mainstream classes.
- The recent appointment of a strategic special educational needs coordinator (SENCo) across the trust has added considerable capacity to the school's work in this area. This is ensuring that additional funding for SEN is used increasingly effectively to support pupils who need additional help to realise their potential.
- The school accurately identifies pupils with special educational needs and/or disabilities (SEND). Adults know the needs of these pupils well. They make the adaptations needed to enable pupils to learn the curriculum. The resource base for pupils with autism provides additional support for pupils to learn alongside their peers. The school recognises that low attendance or repeated poor behaviour hinders a few pupils' ability to learn. The 'school of solutions' provides bespoke intervention to re-engage these pupils into school life.
- Pupils who attend the school's specially resourced provision, the ASC, receive particularly good support. The centre is funded by the local authority and caters for a small number of pupils from across Swindon. The support they receive helps them to make better progress in their studies and to access mainstream classes in a range of subjects. In addition, the centre provides highly effective emotional and pastoral support. It makes an important contribution to these pupils' overall personal development.
- The high-quality work done by the team that supports pupils who have SEN and/or disabilities means that teachers have useful information on how to help these pupils in lessons. The quality of this information provided to teachers is improving as a result of the new leadership of this area.
- Students in the sixth form follow a programme of personal, social and health education that contributes well to their personal development. The small number of students who have SEN and/or disabilities benefit from the same strong support that is seen in the rest of the school. This contributes significantly to their continuing personal development.

Deirdre Fitzpatrick – (Ofsted Inspector, a National Lead for Education, and an Advisor at the Department for Education (DfE) for schools in challenging circumstances. She is currently a school improvement partner to a significant number of schools)

Over the course of the two days what has become eminently clear is that the MAT has inculcated a culture of care and inclusion for SEND students and those most vulnerable. They are clearly ambitious for these students and inventive in their search for solutions. One size, definitely doesn't fit all, and each of the provisions is unique. The Director of Inclusion works well to quality assure the provision and share strengths and areas of success across the MAT. He is extremely knowledgeable in his expertise (no mean feat given the diversity to student need within the MAT) and supports the MAT well to develop excellence.

Marc Rowland of the National Education Trust commented following a detailed review of practice across Swindon schools:

"Inclusion is excellent at Lydiard Park Academy."

Additional Educational Needs (AEN) Staff

Chief Executive Officer (TPAT Staff) – Gemma Piper

Principal – Gary Pearson

Director of Inclusion (TPAT Staff) – David Williams

Deputy Director of Inclusion (TPAT Staff)- Tamsyn Van Der Meulen

SENDCo – Helen Sanders

Autism Specialist Resource Provision (SRP) Manager – Helen Sanders

Assistant SENDCo- Bethanie Day

David Williams (Director of Inclusion - The Park Academies Trust) has a BSc (Hons), a PGCE, and a research Master's degree in Learning and Teaching specialising in student well-being from the University of Oxford. He completed the National Award for Special Educational Needs Co-ordination in 2014, and the National Professional Qualification for Headship (NPQH) in 2019. He is also qualified to test for JCQ examination access arrangements. In 2017 David completed the Master's level Attachment Lead qualification. David was a trustee of the British Dyslexia Association from 2010 to 2020, and was joint non-executive Chair of the Management Board and Chair of the Trustees from 2018 to 2020. During this time, he contributed to the All Party Parliamentary Group for Specific Learning Difficulties on matters regarding the current education and specialist training situation, the need for a coherent system for assessment and access arrangements, and finally, research on higher education institutions' support for students. He is frequently invited to speak to groups of SENDCos both locally and nationally. In 2007, he received an international scholarship for his research into the use of mind-mapping techniques with ASC students, and in 2011 was named Dyslexia Teacher of the Year. He is a member of the Swindon Strategic Special Educational Needs Board and sits on the Swindon and North Wiltshire Professional Leaders Network for the Clinical Commissioning Group. He contributes to the national Academy Trusts Inclusion Forum, and is a member of the Mulberry Bush peer review group for inspection. In 2021 David completed the TEEP level 3 (Teacher Effectiveness Enhancement Programme) and as a trainer has developed a parallel programme for Teaching Assistants. David has worked as a SENDCo, Designated Teacher for Children Looked After, and Designated Safeguarding Lead in various schools and specialises in whole school improvement and inclusion. In his current role David is responsible for the strategic leadership and development of inclusion (including SEND and disadvantaged cohorts) across two large secondary and three primary schools, three pre-schools, and four specialist units. Recently, David has been invited to speak on panels for Westminster Insight and the House of Lords, and he is currently collaborating on an exciting international research project looking at building confidence in children and young people with disabilities. In the Summer of 2023 David spoke at Festival of Education at Wellington College about how the trust won the Wellbeing excellence award. He has recently been asked to work with Challenge Partners facilitating a Triad as part of their pilot for a new Inclusive arm of the program.

Helen Sanders is a qualified teacher with a B.Ed Hons in Physical Education and Geography. She has worked in the Early Years, primary, secondary and 6th form phases of education in roles including Director of PE and Sports Development, Director of Healthy Schools, Director of Spiritual, Moral, Social and Cultural Development and as Assistant Principal. She also has the National Senco Award Level 7. Helen has been a Senco across all key phases of education from Early Years through to Key Stage 5. She is a Swindon Senco Champion for the Local Authority and was a lead Senco at her previous Multi Academy Trust. Helen is the manager of the SRP at LPA and is also the Designated Teacher for Children We Care For.

Bethanie Day, Assistant SENDCo, has been part of Lydiard Park Academy since 2019, 5 years of this has been within the ASC SRP Team. Bethanie has a TQUK Level 4 Diploma for Higher Level Teaching Assistants (2023) and has completed the Level 3 SEND training provided by Swindon Borough Council (2025). She completed the SEND CPD Units provided by Whole School SEND (2025) and Emotion Coaching course provided by The Mulberry Bush School (2021). Bethanie has worked as an ASC TA within Lydiard Park Academy and as an Assistant SENDCo in both a Primary and Secondary School.

Tamsyn van der Meulen, trained initially as a pre-school teacher at the Johannesburg College of Education, in conjunction with the University of The Witwatersrand (UK NARIC equivalent BA) and taught in this phase for 7 years in South Africa, in the private sector. During this time, she completed a Further Diploma in Education at The University of South Africa and obtained this with distinction. Whilst in South Africa, she completed a training course in trauma counselling and volunteered with victims of violent crimes. Tamsyn subsequently emigrated to the UK and worked in mainstream primary schools in Early Years and KS1. During this time, she was RE coordinator, EYFS lead, G&T, Hist/Geog coordinator, SENDCo and Forest School Leader. She then moved to a specialist SEMH school, where she worked for 12 years. During her time there she was a classroom teacher, SENDCo, DDSL, Deputy Principal and finally, DSL and Principal for 4 years. Whilst at Nyland, she also completed an MEd in Professional Studies which she obtained with distinction and through the MEd, also qualified as a specialist dyslexia teacher. She introduced an emotional quotient curriculum at Nyland and began integrating this into whole school practice and teaching and learning, together with a tracking and evidencing method. At Nyland she managed 4 teams over 2 sites including the school staff, Therapy Centre, Outreach Team and Pupil Referral Unit. In addition, Tamsyn has over the years presented training for the Swindon LEA and some schools in SEN and dyslexia, and has also shared learning about working memory, including with the Marlborough Dyslexia Association and on a radio broadcast. More recently she attended and completed Supervision training with staff from the Mulberry Bush school and gained a Certificate in Trauma Mentoring, at the Bath Trauma Centre.

Legislation

Children with SEND have significantly greater difficulty in learning than the majority of others of the same age, or a disability which prevents or hinders them from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools. The Special Educational Needs Code of Practice 2015 lies at the heart of the school's SEND policy and sets out the processes and procedures that all organisations should follow to meet the needs of such children.

SEND Curriculum Intent

To have high aspirations and expectations for all pupils with Special Educational Needs and Disabilities, and to focus on outcomes for children with SEND **since all teachers are teachers of children with Special Educational Needs and Disabilities and teaching such children is therefore a whole school responsibility.** Every pupil with SEND has their own unique educational needs, and at Lydiard Park we are committed to providing a tailored curriculum where adaptations and support are provided without limiting the breadth of students' curricular experience. Lydiard Park is ambitious for all pupils with SEND and we believe that accurate assessment of need and then appropriate planning with parents and carers leads to effective support and interventions for: Communication and interaction; Cognition and learning; Physical health and development; and Social, Emotional and Mental Health. Regular review and re-assessment mean that we are able to ensure there is a focus on preparedness for the next stage of their lives and this drives high aspirations for the future, which in turn ensures that students with SEND achieve exceptionally well when they leave the Trust in year 13 or the school in year 11.

SEND Curriculum Objectives:

- To identify as early as possible, and then monitor, the needs of pupils with SEND so that appropriate provision can be made and their attainment raised.
- To enable students who have Special Educational Needs and Disabilities to reach their full potential through the identification and provision of successful interventions and support.
- To work within the guidance provided in the SEND Code of Practice 2015.
- To work towards successful outcomes through a whole-school approach in the management and provision of support for SEND.
- To provide advice and support for all staff working with students with SEND.
- To provide a broad, balanced, and relevant curriculum, and ensure access to extra-curricular activities and school trips.
- To involve children and their parents/carers in the identification, planning, and reviewing of objectives and outcomes.
- To work in co-operative and productive partnership, where appropriate, with outside agencies.
- To involve and listen to each student's voice in all matters concerning them.
- To record, monitor, and assess outcomes that inform the 'assess, plan, do and review' cycle for each individual student, and those that inform the planning of the school development plan.
- To provide an education that enables all children and young people to make progress so that they achieve the best possible outcomes, become confident individuals living fulfilling lives, and make a successful transition into adulthood, whether into employment, further or higher education, or training.
- To ensure all pupils are able to achieve exceptionally means achievement across the board that is at least similar to that of non-SEND counterparts, that matches or better the child's previous rate of progress, and that closes the attainment gap between the child and their peers. All students can and should achieve their very best.
- To ensure that all students are able to share in all aspects of the life of the school.
- To enable the enhancement of pupils' self-perception as learners.
- To ensure that all students are inspired and motivated, fostering a curiosity to learn.

SEND Implementation

Our Approach to Teaching Learners with SEND

We are fully committed to the inclusion of pupils with special educational needs into mainstream lessons. We seek to ensure that the individual needs of pupils are fully met. We value high quality teaching for all learners and actively monitor teaching and learning in the school.

We aim to create a learning environment which is flexible enough to meet the needs of all members of our school community. We monitor progress of all learners, and staff continually assess to ensure that progress is being made.

How we identify SEND

At different times in their school career, a child or young person may have a special educational need. The Code of Practice defines SEND as follows:

"A child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for them. A child of compulsory school age or a young person has a learning difficulty or disability if they:

(a) have a significantly greater difficulty in learning than the majority of others of the same age: or

(b) have a disability which prevents or hinders them from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions."

If a learner is identified as having SEND, we will provide support that is 'additional to or different from' the normal differentiated curriculum intended to overcome the barrier to their learning.

Learners can fall behind in school for lots of reasons. They may have been absent from school or they may have attended lots of different schools and not had a consistent opportunity to learn. They may not speak English very well or at all, or they may be worried about different things that distract them from learning. At Lydiard Park Academy we are committed to ensuring that all learners have access to learning opportunities and, for those who are not making progress, we will support.

This does not mean that all vulnerable learners have SEND. Only those with a learning difficulty that requires special educational provision will be identified as having SEND.

SEND PROFILE 2019-2025

	March 2019	March 2020	March 2021	March 2022	March 2023	March 2024	July 2025
SEND Support	106	115	121	146	140	154	190
EHCP	32	33	42	46	44	47	51
SEND Total	140	148	163	192	184	201	241
Total NOR	1203	1249	1263	1262	1276	1253	1280
%	12%	11.8%	12.9%	15.2%	14.4%	16%	18.8%

July 2025	Number of pupils	% of whole school	National %
SEN Support	190	14.8%	14.2%
Education, Health and Care Plan (EHCP)	51 (13 based in the ASD centre)	4%	5.3%
Any High Needs Funding (HNF) or EHC needs assessment applications currently in process? 3			
Any significant changes in the SEND profile since last year? No significant changes			
Number of permanent exclusions where the student has SEND – 2			
Attendance of students with SEND – Attendance for students with SEND is significantly above national average.			

Breakdown by area of primary need 24-25

Area of Need	Number of pupils	% of SEN pupils
Cognition and Learning	85	35.3
Communication and Interaction	55	22.8
Social, Emotional and Mental Health	86	35.7
Sensory and/or Physical	15	6.2
What are the most significant types of primary need within the school?	Students with SEMH and C and L have the highest numbers currently. Within Communication and Interaction, ASD students make up a large share, this is partly due to having the ASD SRP in the school. SEMH is the largest primary area of need in the school, closely followed by C and L.	

Not every child identified in the census by disability meets the criteria to be in the SEN Support or EHCP categories.

Assessing SEND

Progress data for all students is collated over the course of the year. The data is reviewed and those pupils who have made no progress, show a severe decline in progress, or a major difference to their peers across English and Maths, are identified and discussed.

All students have Maths, Reading and Writing assessments/teacher assessment three times a year. These results are then analysed alongside other assessments and interventions are implemented if necessary.

In addition to the arrangements for assessing and reviewing all children's progress, pupils with SEND have (where appropriate):

- A review of targets and outcomes specific to the individual is discussed with parents where necessary.
- Early Help Conversation and Team around the Family (TAF) meetings.

- External agency involvement i.e., Educational Psychology, Speech and Language Therapy (SALT), Occupational Therapy and other support service reviews.

What we do to support learners with SEND

Every teacher is required to adapt the curriculum to ensure access to learning for all children in their class. The Teaching Standards and the SEND Code of Practice expects Quality First Teaching to be provided and stipulates that every teacher is a teacher of SEND. The Teaching Assistant Standards document details the expectations for all TAs. Staff will use various strategies to adapt access to the curriculum.

Advisory Teachers are utilised where necessary.

Each learner identified as having SEND is entitled to support that is 'additional to or different from' a normal differentiated curriculum. The type of support is dependent on the individual learning needs, and is intended to enable access to learning and overcome the identified barrier to learning.

How do we find out if support is effective?

Monitoring progress is an integral part of teaching and leadership. Parents/carers, pupils, and staff are involved in reviewing the impact of interventions for learners with SEND. We follow the 'Assess, Plan, Do, Review' model and ensure that parents/carers and children are informed of any planned interventions. Parents are contacted to discuss their child's progress. A baseline is recorded which can be used to compare the impact of provision. Those students with an Education Health and Care Plan will receive an Annual Review and/or an interim review.

The SENDCo at LPA leads and attends regular cluster meetings where impacts of interventions, training outcomes and updates on local procedures/provisions are discussed and shared.

Graduated Response to Needs

During the academic year students with SEND were supported through our graduated response. Wave one students have needs that can be met through classroom differentiation and quality first teaching. Wave two students have additional support such as interventions in school. For Wave three students the school has requested support and advice from outside agencies and individualised interventions are put into place. This may be through the Early Help Conversation procedure or directly with individual agencies or specialists. For a few students, whose needs are significant, an Education, Health, and Care Plan is issued with additional funding beyond the standard sum delegated to the school for Special Educational Needs and Disabilities.

Some students with disabilities and medical needs are entitled to access arrangements for statutory tests. Most commonly this is the use of a reader, additional time, or the use of a scribe/word processor. Students with these arrangements use them as part of their normal provision in school as far as it is practically possible. Students choose to take advantage of these arrangements with guidance from the school and their parents or carers.

Where appropriate students with an Education, Health, and Care Plan (EHCP) attend their annual reviews where their views are sought both as written contributions prepared in advance, and verbal contributions during the meeting.

Arrangements are made for all students with disabilities and medical needs to attend the full range of extra-curricular activities and school trips.

Categories of Students at Wave 1

- Students who are able to make good progress supported by Quality First Teaching in lessons.

Categories of Students at Wave 2

- Students who attend interventions.
- Students who require support with social skills.
- Students who require additional support with English or Maths.
- Some students for whom the school has sought educational advice and support from outside agencies such as the educational psychologist, the speech and language therapist and other advisory services.
- Students who require support to address issues with self-esteem.

Categories of Students at Wave 3

- Students who are supported by significant interventions or targeted programmes designed to meet their needs.
- Some students who are receiving regular support from outside agencies.
- Students who are educated at an alternative educational provision but remain on the school roll.
- Students with an Education Health and Care Plan (EHCP).

School of Solutions – our in Trust Alternative Provision

As a Trust we believe the best measure of a civilised society is how inclusive it is. As such the most inclusive Trusts are also the Trusts driving socio-economic progress in the communities they serve.

We provide an inclusive environment for pupils where they remain part of the mainstream school and to belong both to their school and the Trust family as a whole. We do this by having pupils in the School of Solutions 2 days of the week for a limited period of 2 terms. We know that through this structure, where they take part in the whole school curriculum for 3 days of the week, we can ensure that they have a broad and balanced curriculum. We add to the mainstream curriculum through a therapeutic approach, by offering activities, learning and skills practise that involves the development of emotional quotient skills. These are the foundation for being able to be ready to learn. Our curriculum adds to and enriches the school curriculum on the other 3 days of the week.

We intend this provision, to be a school secure base, for pupils, where we support, facilitate and promote a capacity to tolerate frustration and uncertainty, a sense of self- worth, a capacity to relate to others with sensitivity and respect, a sense of personal agency.

We want to ensure that these students have access to creative and innovative approaches to learning and will use programmes that support and promote the facilitation of the 'finding of meaning', in everything that is offered, whilst preparing them for learning and life beyond the school. It will promote cooperative relational interactions. This will include project based learning and playful learning. A therapeutic approach integrates emotional and academic learning in order to support students to understand and express their emotions in more appropriate ways, see the school as a secure base and so be intrinsically motivated to adjust their behaviour, for the long term. This will lead to students being ready to learn more often and facilitate achievement in all areas and life.

For students to be ready for their futures in the work place and world, there are fundamental steps in their emotional intelligence that must be developed and sustained. These will be the foundation of positive relationships and experiences, that will mean they can go into the world as well-rounded adults, who can positively contribute to society and lead fulfilling lives. The School of Solutions aims to address developmental gaps that may exist for pupils in order to support this foundation.

We intend to ensure we also support primary academic need, by knowing where they are in core skills of English and maths and supporting development of these areas, at the stage they are at, through learning opportunities in the SoS. We will have an English and maths target for each pupil to work on in the SoS.

To support pupils to be in class successfully we also know that transition work is important and so offer a variety of transition interventions. Some include English and maths specifically, where appropriate.

Preparing for the Next Step

Transition is a part of life for all learners. This can be transition to a new class in school, having a new teacher, or moving on to another school. Planning for transition is a part of our provision for all learners with SEND. Pupils identified with SEND may be invited to additional transition work. Visits are made to provisions where necessary and where available. Staff also attend meetings and annual reviews for students joining where possible.

SEND Impact

Attainment and Progress for SEND KS4 2024-2025

	SIGRA Nat Avg 2025	LPA					
		2023	2024	No of Students 2025	2025 Target	Lost RP	2025
Cohort size							254
P8		0.03	0.23				
9-7 EM	12%		7%	20	5%	7%	9%
9-5 EM	45%	42%	48%	92	44%	37%	43% ↓
9-4 EM	65%	63%	66%	141	79%	66%	66% ↑
Strong Ebacc	17%	8%	12%	26	19%	11%	12% ↑
Standard Ebacc	24%	11%	19%	42	29%	23%	20% ↓
Ebacc entries	39%	20%	37%	83	34%	34%	39% ↑
Ebacc APS	4.06		4.06		4.18	3.96	4.09 ↑
A8	46.15	46.15	46.78		47.54	45.65	47.04 ↑
Triple Science Entries	22%		14%	31			14%
MFL Entries	44%		42%	73			34%
send EHCP A8	24.28		35.07	11	33.41	27.5	30.41 ↓
SEND K A8	32.95		31.66	31	40.4	35.58	38.41 ↑
Disadvantaged A8 (FSM, Ever 6, CLA)	37.64		34.56	41	43.57	38.4	38.02 ↑

Lydiard Park School outperformed the previous year's results on every measure and the national benchmarking on almost every measure with a significantly positive A8 of 38.41 for pupils at SEND Support and 30.41 for pupils with and EHCP.

We run two structured interventions to improve literacy. The first, Corrective Reading, supports identified students who have difficulty with reading accurately and fluently. The programme provides a unique blend of teacher-directed instruction and high-frequency practice to accelerate decoding skills. The results achieved by students using the Corrective Reading programme are compelling considering the relatively short period of time and the fact that the students undertaking the programme are students who have historically not made progress with reading.

The second programme, Morphographs, is a one-year programme designed to teach spelling to older students. We use this with a group of Year 9 and this can be at the same time as Corrective Reading to try to boost their low literacy levels before they start the GCSE courses in Year 10. Students learn that words are composed of morphographs, which roughly are prefixes, suffixes, and bases or roots. The programme presents rules for combining the morphographs and provides extensive practice in applying these rules. The programme uses specific strategies that encourage students to think their way through spelling rather than to memorise word lists. Upon completion of the program, students will have learned 750 morphographs and be able to spell between 12,000 and 15,000 words including most words on the complete Dolch word list. Alongside this, these students receive a study skills session each week looking at how to read exam papers and how to revise effectively.

Liaison

Swindon Borough Council has created a Strategic SEND Board with representatives from Education, Health, and Social Care across Children's and Adult Services. David Williams (Director of Inclusion, The Park Academies Trust) attends all the meetings. The Board also includes representation from the parents and carers group, and the voluntary and community sector. The board is chaired by the Director for Education for Swindon and includes Director of Children's & Adult Services as one of the members, who in turn reports to Corporate Board and the Cabinet. As a Trust we are working with Swindon to streamline the Statutory assessment process ensuring that process happen during term time to ensure the very best quality of assessment.

Professional Development

The Trust offers SEND online training through The National College.

There have been a number of SEND-related training sessions for staff including:

- Annual SENDCo conference
- Welfare Call and E PEP
- JCQ Examination Access Arrangements Training
- Exclude to Include training for CLA
- Role of an Exam Invigilator
- Attachment training and de-escalation strategies
- EHC Needs assessments
- Provision Map

Staff have worked alongside advisory staff and outreach workers who have visited the school and/or attended meetings, which has developed knowledge, understanding, and expertise.

The SENDCo trained newly qualified teachers and new members of staff in Special Educational Needs and Disabilities procedures and provision.

Parent/Carer Involvement in Provision for Students with SEN, Disabilities, and/or Medical Needs

Annual Reviews, Early Help Conversations, TAFs, e-mails, phone calls, and meetings take place. Parents and Carers are fully included in the review process for students with SEND and they are encouraged to develop the students' learning at home, supporting them with homework, interventions, and/or reading. This partnership has a significant positive impact on student progress, all parents have the option to talk formally about their child's progress at least three times a year.

Funding

Forty-seven children were in receipt of High needs top-up funding to meet their individual needs as agreed by the Special Educational Needs Disability Team within the LA. The funding for these children was used to maintain teaching assistants and buy specific resources. The school budget, includes money for supporting children with SEND. This funding was used to employ and train teaching assistants, resources and external agency support e.g. The Education Psychology Service and Education Welfare Officer (EWO).

Deployment of Staff and Resources

During the academic year 2024-2025 staff were deployed to provide for students with Special Educational Needs and Disabilities in the following ways:

- Teaching Assistants worked in mainstream classrooms alongside classroom teachers to support SEND students and take small groups or individual students for additional support, mostly outside of timetabled lessons.
- The SEND staff worked closely with the pastoral team contributing to 'Early Help Records', 'Team Around the Family' meetings, 'Child In Need' Meetings, contact with parents, and assessment of student needs.

External Agencies

The advice and support of the following agencies has been sought:

- The advisory teachers for hearing impairment, visual impairment, social and communication difficulties and physical disability
- Educational Psychology Service (EPS)
- Speech and Language Therapy
- Occupational Therapy
- Community Paediatricians
- Swindon Ten to Eighteen Project (STEP)
- School Nursing Service
- Young Carers
- Swindon Information Support and Advice Service (SIAS)
- Education Welfare Officer
- Contact Swindon
- Advisory Teacher for Cognition and Learning
- Swindon Autism Advice Support Service (SAAS)
- SEND Service Senior Officer
- Virtual School (for children who are Looked After by the Local Authority)
- Child and Adolescent Mental Health Service (CaMHS) Swindon Be U

Arrangements for consulting and involving children

The arrangements for consulting and involving children vary according to the age, maturity and capability of each individual. However, in addition to the arrangements offered to all pupils' views will be actively sought through:

The Pupil Perceptions survey (each year in the summer term)
Reviewing individual plans
EHCs and TAF meetings
EHCP Annual Reviews
SEND specific appointments with the SENDCo
Young Inspectors

How children with SEND are enabled to engage in activities alongside children who do not have SEND

Children with Special Educational Needs and Disability (SEND) have accessed the same clubs as children without SEND. Reasonable adjustments have been made to enable pupils with SEND to access day and residential trips. Full risk assessments have been carried out in advance. Pupils with SEND have been encouraged to attend residential trips with their peers to help them develop life skills.

Local Offer

For further information on services available within Swindon, please see the Swindon Local Offer at <https://localoffer.swindon.gov.uk>

Parents are offered and encouraged to access the support of the Swindon based organisation: Swindon SEND Information, Advice and Support service <https://www.swindonsias.org.uk/>
Tel: 01793 466515 or email: SIAS@swindon.gov.uk

Arrangements for handling complaints from parents of children with SEND about the provision made at the school

In the event of a parent having cause for complaint in relation to their child's needs being met they should, at first, express their concerns to their child's teacher. If concerns or queries remain unanswered then matters can be discussed at a further meeting with the class teacher and/or the SENDCo.

If matters cannot be resolved, parents can speak to the Principal. The Complaints Policy is available on the school website or as a hard copy from the school office.

Contact information

Parents with enquiries regarding Disabilities and/or Special Educational Needs are invited to contact the school by phone (01793 874224), email, or letter. Appointments can be made with:

David Williams; Director of Inclusion – WilliamsD@theparkacademiustrust.com

Tamsyn Van Der Meulen; Dep. Director of Inclusion- VanDerMeulenT@lydiardparkacademy.org.uk

Helen Sanders; SENDCo and ASC manager - Sandersh@lydiardparkacademy.org.uk

Bethanie Day; Assistant Senco - DayB@lydiardparkacademy.org.uk

Jac Bisson; Additional Needs Administrative Assistant - BissonJ@theparkacademiestrust.com

SEND Governor – Please contact school reception.
